# EL REAL CLUB MARÍTIMO DEL ABRA REAL SPORTING CLUB

## HOISTING SAILS SINCE 1898

The Real Club Marítimo del Abra-Real Sporting Club is a long standing and prestigious Biscayne club that has always been greatly influenced by the British sailing world. Since it was established the RCMA-RSC has been a point of reference for social gatherings and events, as well as for recreational and competitive sports.

The Club has constantly kept its facilities and management up to date in order to keep up with the times. Proof of this is in the many new services have been made available at the Club since its foundation while, at the same time, keeping its exclusivity and tradition.

The Club's exclusivity is highlighted by its close relationship with the Spanish Royal Family, especially with His Majesty the King Alfonso XIII, who was an eager and regular competitor in the sailing races held in the Abra Bay by the Club.

Walking into its noble lounges, admiring its works of art, and enjoying its surroundings is a joy and a journey through time, both to the past and into the future.
